PROFILE

A dedicated and skilled React Native Developer with over two years of professional experience at Developatic, specializing in building high-performance mobile applications. My portfolio includes creating and enhancing mobile apps with real-time functionalities, such as chat and notifications, for diverse markets. Additionally, I have a solid foundation in web development, having created multiple responsive websites using HTML, CSS, and React. I am passionate about delivering seamless user experiences and am proficient in working with various technologies like Firebase, Google Maps, Stripe, and Intercom.

LANGUAGES

Arabic (native speaker)
English (upper intermediate)
French (intermediate)

EDUCATION

Master's degree in software engineering

University of ibn khaldoun tiaret 10-2020/06-2022

Bachelor's degree in computer science

University of ibn khaldoun tiaret 10-2017/06-2020

EXPERIENCE

- Kerya: Developed a property rental app for the Algerian market, incorporating features like maps, calendars, real-time chat, and Firebase notifications.
- Docminute: Built and maintained two separate apps for patients and doctors, facilitating appointment booking and management with real-time updates.
- Heyu: Created an app that allows clients to assign missions to guards, with immediate push notifications upon assignment.
- Darifacile: Developed a sales app featuring product showcases focusing on installment-based transactions.
